

Blast Away with NERF Strike Game on Roblox

27 May, 2021

First-person NERF blaster game launches on Roblox

[NERF Strike](#) brings the adrenaline charged fun of NERF blasting with your friends to all Roblox platforms. Compete in 24-person free-for-all NERF blaster battles using digital recreations of iconic blasters in fun, challenging play arenas ranging from space stations to a medieval market. Published by [Metaverse Team](#) (San Francisco) & developed by [The Gang](#) (Stockholm), NERF Strike launched today and is available on all Roblox servers.

"NERF Strike improves the player experience in the action category on Roblox" says Ben Topkins, CEO and Founder of Metaverse Team, "As our first game, NERF Strike shows our commitment and confidence bringing Roblox players high fidelity experiences not yet shared on the platform."

NERF Strike has loads of cool features including:

- **Amazing blasters:** Experience eight customizable NERF blasters, as well as special abilities you choose before each match, including dart-blasting turrets, smoke-making and dart-throwing devices
- **Unique play arenas:** Three maps, and two game modes (12-v-12 play and 24-player-free for-all) are all available. Challenging obstacles like swinging bridges, opening and closing doors and jump pads require skillful blasting to get the edge on the competition
- **Upgrade and customize your play with customization features:** Players can upgrade their blasters and unlock new abilities based on player XP level through the game's progression system. Buy - skins, specialty darts, and blasters that enhance the gaming experience

Updates will be frequent after launch with new blasters and game modes on the way.
