

Support for the Asian Community

23 Mar, 2021

We are proud to support [Stop AAPI Hate](#) with a financial grant collectively from Hasbro, Wizards and eOne. Stop AAPI Hate was developed in response to the alarming escalation in xenophobia and bigotry resulting from the COVID-19 pandemic. The center tracks and responds to incidents of hate, violence, harassment, discrimination, shunning, and child bullying against Asian Americans and Pacific Islanders. By identifying patterns and sources of anti-Asian racism, they are better able to support government agencies and community-based organizations that request their assistance. If you would like to join us and contribute to this cause, you can [donate here](#).

We are also working with our longtime partner, [Design for Change](#) to fund the development of educational materials within their Racial Justice curriculum to build empathy in young people and create social change. This will include a podcast series that will center voices of Asian youth, educators and caregivers and promote justice. These resources will be shared with employees once developed.

Hasbro stands in solidarity with our Asian colleagues and the Asian community and condemns racism and discrimination in all its forms. On behalf of Hasbro, eOne and Wizards, we are committed to creating change through action, including:

Supporting Stop AAPI Hate through a financial grant

Continuing to educate ourselves on anti-racist strategies and actions

Partnering with Design for Change to fund the development of education curriculum to build empathy in young people and create social change
