

## Hasbro Donates Over 1 Million Toys and Games This Holiday Season

01 Dec, 2020

For more than 20 years, Hasbro has supported Marine Toys for Tots to help keep the magic and joy of the holidays alive for children across the country by ensuring that parents and caregivers are able to give a gift to their child on the morning of their holiday.

Earlier this year, Hasbro supported Toys for Tots in distributing toys and games to children across the country who were most impacted by COVID-19, with hopes of keeping them engaged and occupied during an extended time at home.

This holiday season, the COVID-19 pandemic has created unprecedented need and Hasbro is proud to be able to **donate more than 1 million toys and games to support children and families across the nation.**

Through the generosity of individuals, organizations and businesses, combined with a dedicated corps of over 35,000 volunteers working in 800 communities across the country, [Toys for Tots](#) plays an active role in inspiring others to make a difference in their communities and has been delivering a message of hope to children in need since 1947.
