

Bring Home the Fun and Enjoy Your Favorite Games Virtually

12 Aug, 2020

Playing your favorite Hasbro Gaming products while social distancing can be tough. Just because you can't sit down at the same table with friends and family to play a game of Clue, doesn't mean you can't still all enjoy the fun together. Hasbro's Bring Home the Fun campaign was designed to help kids and their families by staying occupied and engaged at home. At [BringHomeTheFun.com](https://www.hasbro.com/bringhomefun), you can now find virtual rules for some of your favorite games, that way you can play over your preferred video chat platform.

These rules explain exactly what game moderators and players must do for everyone to join in on the fun virtually! You can find the virtual rules for the Clue, Taboo, Yahtzee, Danger Word, Scattergories, and Box of Lies games under the "Fun to Do" section of [BringHomeTheFun.com](https://www.hasbro.com/bringhomefun).

While you're there, check out the rest of the website for family-focused resources, new takes on classic games, and play-based tips, tools, and challenges. Then, join the conversation, connect with other families, and share your own tips for at-home activity by using #BringHomeTheFun on social.
