03 Aug, 2020

Gamespot exclusively revealed the **Monopoly Arcade Pac-Man Game** in celebration of **Pac-Man's 40th Anniversary**. This version of Monopoly features a few differences to fit the Pac-Man theme, like using points rather than money, ghost tokens that follow players around, and a miniature arcade cabinet that can be used to play Pac-Man when passing Go and for players to take care of their in-game business.

Monopoly Arcade Pac-Man Game is available now at major retailers such as Walmart, Target, and Amazon.
