14 Jul, 2020

IGN has exclusively revealed the **Transformers x Top Gun** collaboration figure. The collaboration highlights two iconic 1980s brands to introduce fans to the **Autobot Maverick**, a converting **F-14 Tomcat** and volleyball-playing naval aviator.

Maverick comes with two extra hands to play some beach volleyball while in robot mode and even includes a screen-inspired miniature motorcycle accessory. Maverick's head features an eye-popping red, white, and blue helmet based on the upcoming **Top Gun: Maverick** film.

This is the second collaboration between Transformers and another iconic property this year, as the **time-travelling Autobot Gigawatt** inspired by **Back to the Future**, was revealed [earlier this month](#).

Preorders for the Transformers x Top Gun collaboration figure are live on [Hasbro Pulse](#) (to residents of the US and Canada only).
