MONOPOLY GO! advances to $2 billion in revenue in first 10 months

Another milestone for MONOPOLY GO!

The beloved mobile game, from our partners at Scopely, passed an astounding $2 billion in lifetime revenue last month, just ten months since its launch and only three months after reaching the $1 billion mark.

Thank you to the community of players, who advance to MONOPOLY GO! again and again to play this superb mobile version of our much-loved classic.

Congratulations to our friends and partners at Scopely and Hasbro's Digital Licensing team on this remarkable success – and their role in bringing joy and connection to over 150 million players around the world.
