Forward Looking Statement Safe Harbor

Certain statements in this press release contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of

1995. These statements, which may be identified by the use of forward-looking words or phrases, include statements relating to: our business strategies and plans; products, gaming and entertainment; anticipated cost savings; expected debt repayments and share repurchases; expected impact of tariffs; anticipated benefits and potential impact of moving our Rhode Island operations to Boston, Massachusetts; expected impact of newly issued accounting pronouncements; financial targets; and expectations for our future performance. Our actual actions or results may differ materially from those expected or anticipated in the forward-looking statements due to both known and unknown risks and uncertainties.

Factors that might cause such a difference include, but are not limited to:

- our ability to successfully implement and execute on our *Playing to Win* business strategy;
- our ability to successfully compete in the play industry and further develop our digital gaming, licensing and consumer products businesses and partnerships;
- risks associated with the imposition, threat, or uncertainty of tariffs, including the impact of reciprocal or retaliatory tariffs, in markets in which we operate which could increase our product costs and other costs of doing business, result in higher prices of our products, impact consumer spending, lower our revenues, result in delays or reductions in purchases from our customers, result in goodwill impairments, reduce earnings and otherwise have an adverse impact on our business;
- risks associated with international operations, such as: the imposition or threat of tariffs; conflict in territories in which we operate or which affect areas in which we operate; currency conversion; currency fluctuations; quotas; shipping delays or difficulties; border adjustment taxes or other protectionist measures; and other challenges in the territories in which we operate;
- risks related to political, economic and public health conditions or regulatory changes in the markets in which we and our customers, partners, licensees, suppliers and manufacturers operate, such as inflation, fluctuating interest rates, tariffs, higher commodity prices, labor strikes, labor costs or transportation costs, or outbreaks of illness or disease, the occurrence of which could create work slowdowns, delays or shortages in production or shipment of products, increases in costs, reduced purchasing power or less discretionary income, or losses and delays in revenue and earnings;
- uncertain and unpredictable global and regional economic conditions impacting one or more of the markets in which we sell products, which can negatively impact our customers and consumers, result in lower employment levels, consumer disposable income, retailer inventories and spending, including lower spending on purchases of our products;
- our ability to transform our business and capabilities to address the changing global consumer landscape, including evolving demographics for our products and advancements in emerging technologies, such as the integration of artificial intelligence into our product development, marketing strategies, and consumer engagement, and the associated risks such as competition, ethical concerns, evolving regulatory standards, implementation challenges, and third-party dependencies on such technologies;
- our ability to design, develop, manufacture, and ship products on a timely, cost-effective and profitable basis;
- the concentration of our customers, potentially increasing the negative impact to our business of difficulties experienced by any of our customers or changes in their purchasing or selling patterns;
- our dependence on third-party relationships, including with third-party partners, manufacturers, distributors, studios, content producers, licensors, licensees, and outsourcers, which creates reliance on others and loss of control;
- risks relating to the concentration of manufacturing for many of our products in the People's Republic of China, which include the risks associated with increased tariffs imposed on trade between China and the U.S., and our ability to successfully diversify sourcing of our products to reduce reliance on sources of supply in China;
- the success of our key partner brands, including the ability to secure, maintain and extend agreements with our key partners or the risk of delays, increased costs or difficulties associated with any of our or our partners' planned digital applications or media initiatives;
- our ability to attract and retain talented and diverse employees;
- our business could be adversely affected by challenges and disruptions arising from the loss of skills, knowledge or expertise, and from uncertainty regarding the continued employment of key personnel, particularly as a result of recent workforce reductions and the planned relocation of our Rhode Island operations to Boston, Massachusetts;
- our ability to realize the benefits of cost-savings and efficiency and/or revenue and operating profit enhancing initiatives;
- risks relating to the impairment and/or write-offs related to businesses, products and/or content we acquire and/or produce;
- the risk that acquisitions, dispositions and other investments we complete may not provide us with the benefits we expect, or the realization of such benefits may be significantly delayed or reduced;
- our ability to protect our assets and intellectual property, including as a result of infringement, theft, misappropriation, cyber-attacks or other acts compromising the integrity of our assets or intellectual property;
- fluctuations in our business due to seasonality;
- the risk of product recalls or product liability suits and costs associated with product safety regulations;
- the impact of litigation or arbitration decisions or settlement actions;
- the bankruptcy or other lack of success of one or more of our significant retailers, licensees and other partners; and
- other risks and uncertainties as may be detailed in our public announcements and U.S. Securities and Exchange Commission ("SEC") filings.

The statements contained herein are based on our current beliefs and expectations. We undertake no obligation to make any revisions to the forward-looking statements contained in this press release or to update them to reflect events or circumstances occurring after the date of this press release.

Non-GAAP Financial Measures

The financial tables accompanying this press release include non-GAAP financial measures as defined under SEC rules, specifically Adjusted operating profit, Adjusted operating margin, Adjusted net earnings and Adjusted net earnings per diluted share, which exclude, where applicable, acquired intangible amortization, strategic transformation initiatives, restructuring and severance costs, loss on disposal of business, eOne Film and TV business divestiture related costs, and non-cash goodwill impairment charges, and Net loss on Discovery Investment. Also included in this press release are the non-GAAP financial measures of EBITDA and Adjusted EBITDA. EBITDA represents net earnings attributable to Hasbro, Inc. excluding interest expense, income tax expense, net earnings attributable to noncontrolling interests, depreciation and amortization of intangibles. Adjusted EBITDA also excludes strategic transformation initiatives, restructuring and severance costs, loss on disposal of business, eOne Film and TV business divestiture related costs, non-cash goodwill impairment charges, Net loss on Discovery Investment and the impact of stock compensation. As required by SEC rules, we have provided reconciliations on the attached schedules of these measures to the most directly comparable GAAP measure. Management believes that Adjusted net earnings, Adjusted net earnings per diluted share, Adjusted operating profit and Adjusted operating margin provide investors with an understanding of the underlying performance of our business absent unusual events. Management believes that EBITDA and Adjusted EBITDA are appropriate measures for evaluating the operating performance of our business because they reflect the resources available for strategic opportunities including, among others, to invest in the business, strengthen the balance sheet and make strategic acquisitions. The Company is not able to reconcile its forward-looking non-GAAP adjusted operating margin and adjusted EBITDA measures because the Company cannot predict with certainty the timing and amounts of discrete items such as charges associated with its cost-savings program, which could impact GAAP results. Constant currency is also a non-GAAP financial measure. The impact of changes in foreign currency exchange rates used to translate the consolidated statements of operations is quantified by translating the current or future period revenues at the prior period exchange rates and comparing this amount to the prior period reported revenues. The Company believes that the presentation of the impact of changes in exchange rates, which are beyond the Company's control, is helpful to an investor's understanding of the performance of the underlying business. These non-GAAP measures should be considered in addition to, not as a substitute for, or superior to, net earnings or other measures of financial performance prepared in accordance with GAAP as more fully discussed in our consolidated financial statements and filings with the SEC. As used herein, "GAAP" refers to accounting principles generally accepted in the United States of America.
